(GST inclusive)
*Training materials, lunches and
refreshments included*

OBJECTIVES:

FSSC 22000 combines ISO 22000 & ISO/TS 22002—Prerequisite programmes on food safety for food manufacturing. The purpose of this training course is to provide food chain professionals with the skills and knowledge necessary to audit food safety managements systems (FSMS) with a view to asses the adequacy of the design, implementation and improvement of a food industry of organisation's FSMS against ISO 22000:2005 and in accordance with ISO 19011.

This course is designed for experienced food safety professionals with an understanding of the management systems approach to food safety and the skills required to audit effectively against FSMS.

COURSE NO: 17304 CERTIFICATED BY IRCA
