SGS ACADEMY – TRANSFORMING PEOPLE AND BUSINESSES

As the leader in professional training, we draw on our years of worldwide experience to provide effective learning and development opportunities. We make a difference to individuals, teams and businesses, nurturing talent and enabling continuous organizational progression. Our specialists partner with course participants, identifying improvement objectives and supporting the professional journey.

DURATION (DAYS): 1

TRAINING OPTIONS: Public & In-House

ACCREDITATION: SGS/IRCA CPD

COURSEWARE LANGUAGE: ENGLISH

COURSE DESCRIPTION

The objective of this course is to provide participants with an introduction to ISO 14001:2015 (DIS) as set out in the Draft International Standard. This day consists of tutor led presentations and workshops. This course can be run as IRCA CPD approved or Non Approved and on completion of this course you will receive an SGS IRCA CPD Certificate of Attendance or SGS Certificate of Attendance.

AUDIENCE PROFILE

This course is suited to anyone working with Environmental Management System standards.

LEARNING OUTCOMES

On completion of this course delegates will be able to:

- Explain the purpose and intent of the new series of management systems standards
- Understand the application of the principles of environmental management
- Describe the revisions to ISO 14001:2015 (DIS) based on the Draft International Standard.
- explain the relationships between the clauses of ISO 14001:2015 (DIS)

BACKGROUND

The latest milestone in the ISO 14001 revision process was reached on 1 July 2014 when ISO 14001:2015 (DIS) was issued. The first formal draft describes the potential requirements of the revised version of ISO 14001 but it does give an indication on what might be included in the final version of the standard planned to be published in Q3 2015.

ISO has identified the following emerging changes as a result of the revision, which is incorporated within the training:

1. Strategic Environmental Management
2. Leadership
3. Protecting the environment
4. Environmental performance
5. Lifecycle thinking
6. Communication
7. Documentation

SGS is in an ideal position to support you through the transition process by giving you information on ISO 14001:2015 (DIS) and the changes to the standards as they happen.

ADDITIONAL INFORMATION

This is an IRCA CPD course and does not meet the transition requirements for IRCA certificated auditors.
