

ANCHORAGE, ALASKA

FULL SERVICE ENVIRONMENTAL LABORATORY

SINCE 1964

...your long term provider of excellent service

The Anchorage laboratory operation, a member of the SGS Group for 20 years, has been serving Alaska since 1964. Situated in mid-town, just five minutes from the International airport, SGS Alaska has a staff of 60 and a 23,000 square foot facility, capable of serving a variety of federal and commercial clients. The Alaska operation also offers a receiving station in Fairbanks.

DELIVERABLES

- Searchable PDF Reports
- Data deliverables are available in virtually any spreadsheet or database format.
- Web based Data Access: **SGS ENGAGE** provides web access to all of our PDF reports and Electronic Data Deliverables.

TECHNICAL FIELD TRAINING

SGS Alaska also offers technical field training for clients performing field testing. By combining expertise, we help our clients develop stronger field teams.

MINING INDUSTRY

SGS supports the mining industries efforts to responsibly develop Alaska resources by providing local support for baseline and monitoring program data collection. Alaska is our #1 priority. We have made significant investments for providing low level analysis and automated procedures aimed to produce reproducible / defensive data.

MOBILE LABORATORY SERVICES

SGS Alaska has provided mobile laboratory services for some of the most remote sites in Alaska and across the globe. The on site data has allowed field teams to make timely, informed decisions in meeting critical deadlines.

SGS is the world's leading inspection, verification, testing and certification company. SGS is recognised as the global benchmark for quality and integrity. With more than 80,000 employees, SGS operates a network of over 1,650 offices and laboratories around the world.
